

**Personal Optical carries the following lenses:**

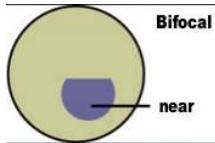

**Single Vision**

Used for either distance or reading vision.

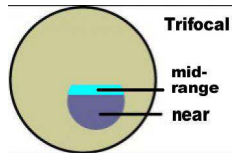

**Lined Bifocal**

Two focal points, one for distance and the other (near) for reading.

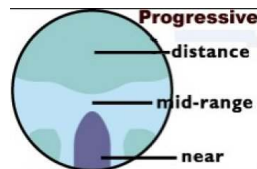

**Lined Trifocal**

Three focal points: distance, mid-range, and near (for reading). The mid-range area is used for areas at arms length (ex. computer screen)

**Progressive Lens**

Known as no-line bifocal but is actually a trifocal as it has three focal areas: near (for reading), mid-range and distance areas.

## FREQUENTLY ASKED QUESTIONS

### WHAT DO YOU MEAN BY MOBILE OPTICAL?

*We provide eyewear services at your location of choice at a mutually-agreed upon time.*

### ARE THERE EXTRA CHARGES?

*None and you will find our lenses and frames very competitively priced.*

### DO YOU PROCESS INSURANCE CLAIMS?

*Yes! We will happily handle your insurance claims as long as your insurance provider allows it. Some insurance policies do not permit Optical stores to claim directly to them.*

### DO YOU PERFORM EYE EXAMS?

*No, we do not perform eye exams at this time. You must have a prescription prior to us ordering the glasses. If you do not have a copy of your prescription, we can call your Doctor and obtain it for you.*

### CAN I ORDER MY GLASSES AT ONE LOCATION, AND HAVE THEM DELIVERED OR SERVICED AT ANOTHER?

*No problem... No charge! YOU choose the location. It's that simple.*
